

# WE ARE D'ORKEST

## ABOUT

d'Orkest started as a group of close friends who shared a love for making music and enjoying great food together. In 2018, they began playing cover songs, but when the pandemic hit, they huddled together and started writing their own music. Before they knew it, d'Orkest's eclectic sound that blended different cultures and musical styles had become a hit throughout the Caribbean.

The band initially consisted of an unusual lineup of three guitar players, two vocalists, and a rhythm section with drums and bass. They later added a horn section to create their signature sound, which draws from the band members' diverse cultural and musical backgrounds. From rock to reggae, funk to indie, d'Orkest plays it all, and their repertoire includes songs in English, French, Portuguese, and Aukaans (a local tribal language).

Today, d'Orkest has a growing and passionate fan base that inspires them to keep creating new music and putting on unforgettable performances!
